

PUBLIC BETA FEEDBACK

NEW FEATURES

FEEDBACK	RESPONSE
▪ Add more variety of bets	We are currently working with data feed providers to bring more options
▪ More jerseys, colours or player images to be added	We will look to see if we can bring in jersey colours. Player images will not be possible at this time due to very high licensing fees.
▪ Addition of sounds	We will look at introducing sounds and alert interactions
▪ Remind me button when there are no games	Button to be added in the next release
▪ Bonus rounds or free swipes	This is part of our future roadmap
▪ Show the actual bet in the email notifications	We will look to add a button that will link to the bet in the mobile app
▪ Add notification when KYC is complete	This has already been added into the application
▪ Social integration with Facebook, Twitter, Instagram etc	We are limited by the regulators to add social interactions due to age restriction
▪ Allow support or chat within the app	We will be looking at adding this into our future road map but has been given a lower priority
▪ Ability to search for a particular game	This is part of our future roadmap
▪ Can we add Boxing, UFC, MMA	We will be adding more sports in the future starting with Baseball and Cricket
